

**FOR IMMEDIATE PUBLIC RELEASE**

## AP Visions creates partnership with Softactics Lab Billing Systems

Press Release 11/26/19

AP-Vision announces the release of lab billing interface. A partnership between Softactics Laboratory Billing Systems has been reached where both companies will interface each other's software with no additional cost for the interface, to the customer. This amounts to a substantial savings to the lab who can now have all their lab work seamlessly interfaced with the robust and highly praised Softactics billing system. This is also a continuance of the technology employed with the cost effective and popular xLab Laboratory Information System.

*Headquartered in Marco Island, Florida, AP Visions is a global software developer and supporter for clinical laboratory solutions and connectivity. It is a trusted world leader in clinical laboratory software solutions that optimize the clinical utility, operational efficiency and financial performance of the lab. Their unwavering commitment to clinical data storage, moving, reporting and security is reflected in the AP Visions brand.
